

Money Machine

4 years

of historical data of coins that got listed on Binance.

Getting the Data

Checking if the data is clean

Data Analysis

78 %

of the Coins were falling since the listing-announcement

0.000000165 %

chance that so many coins would fall randomly

- 45 %

Average price development of the coins since their Binance-listing-announcement

Massive pricedrop

Same effect with other Brokers!

Why?

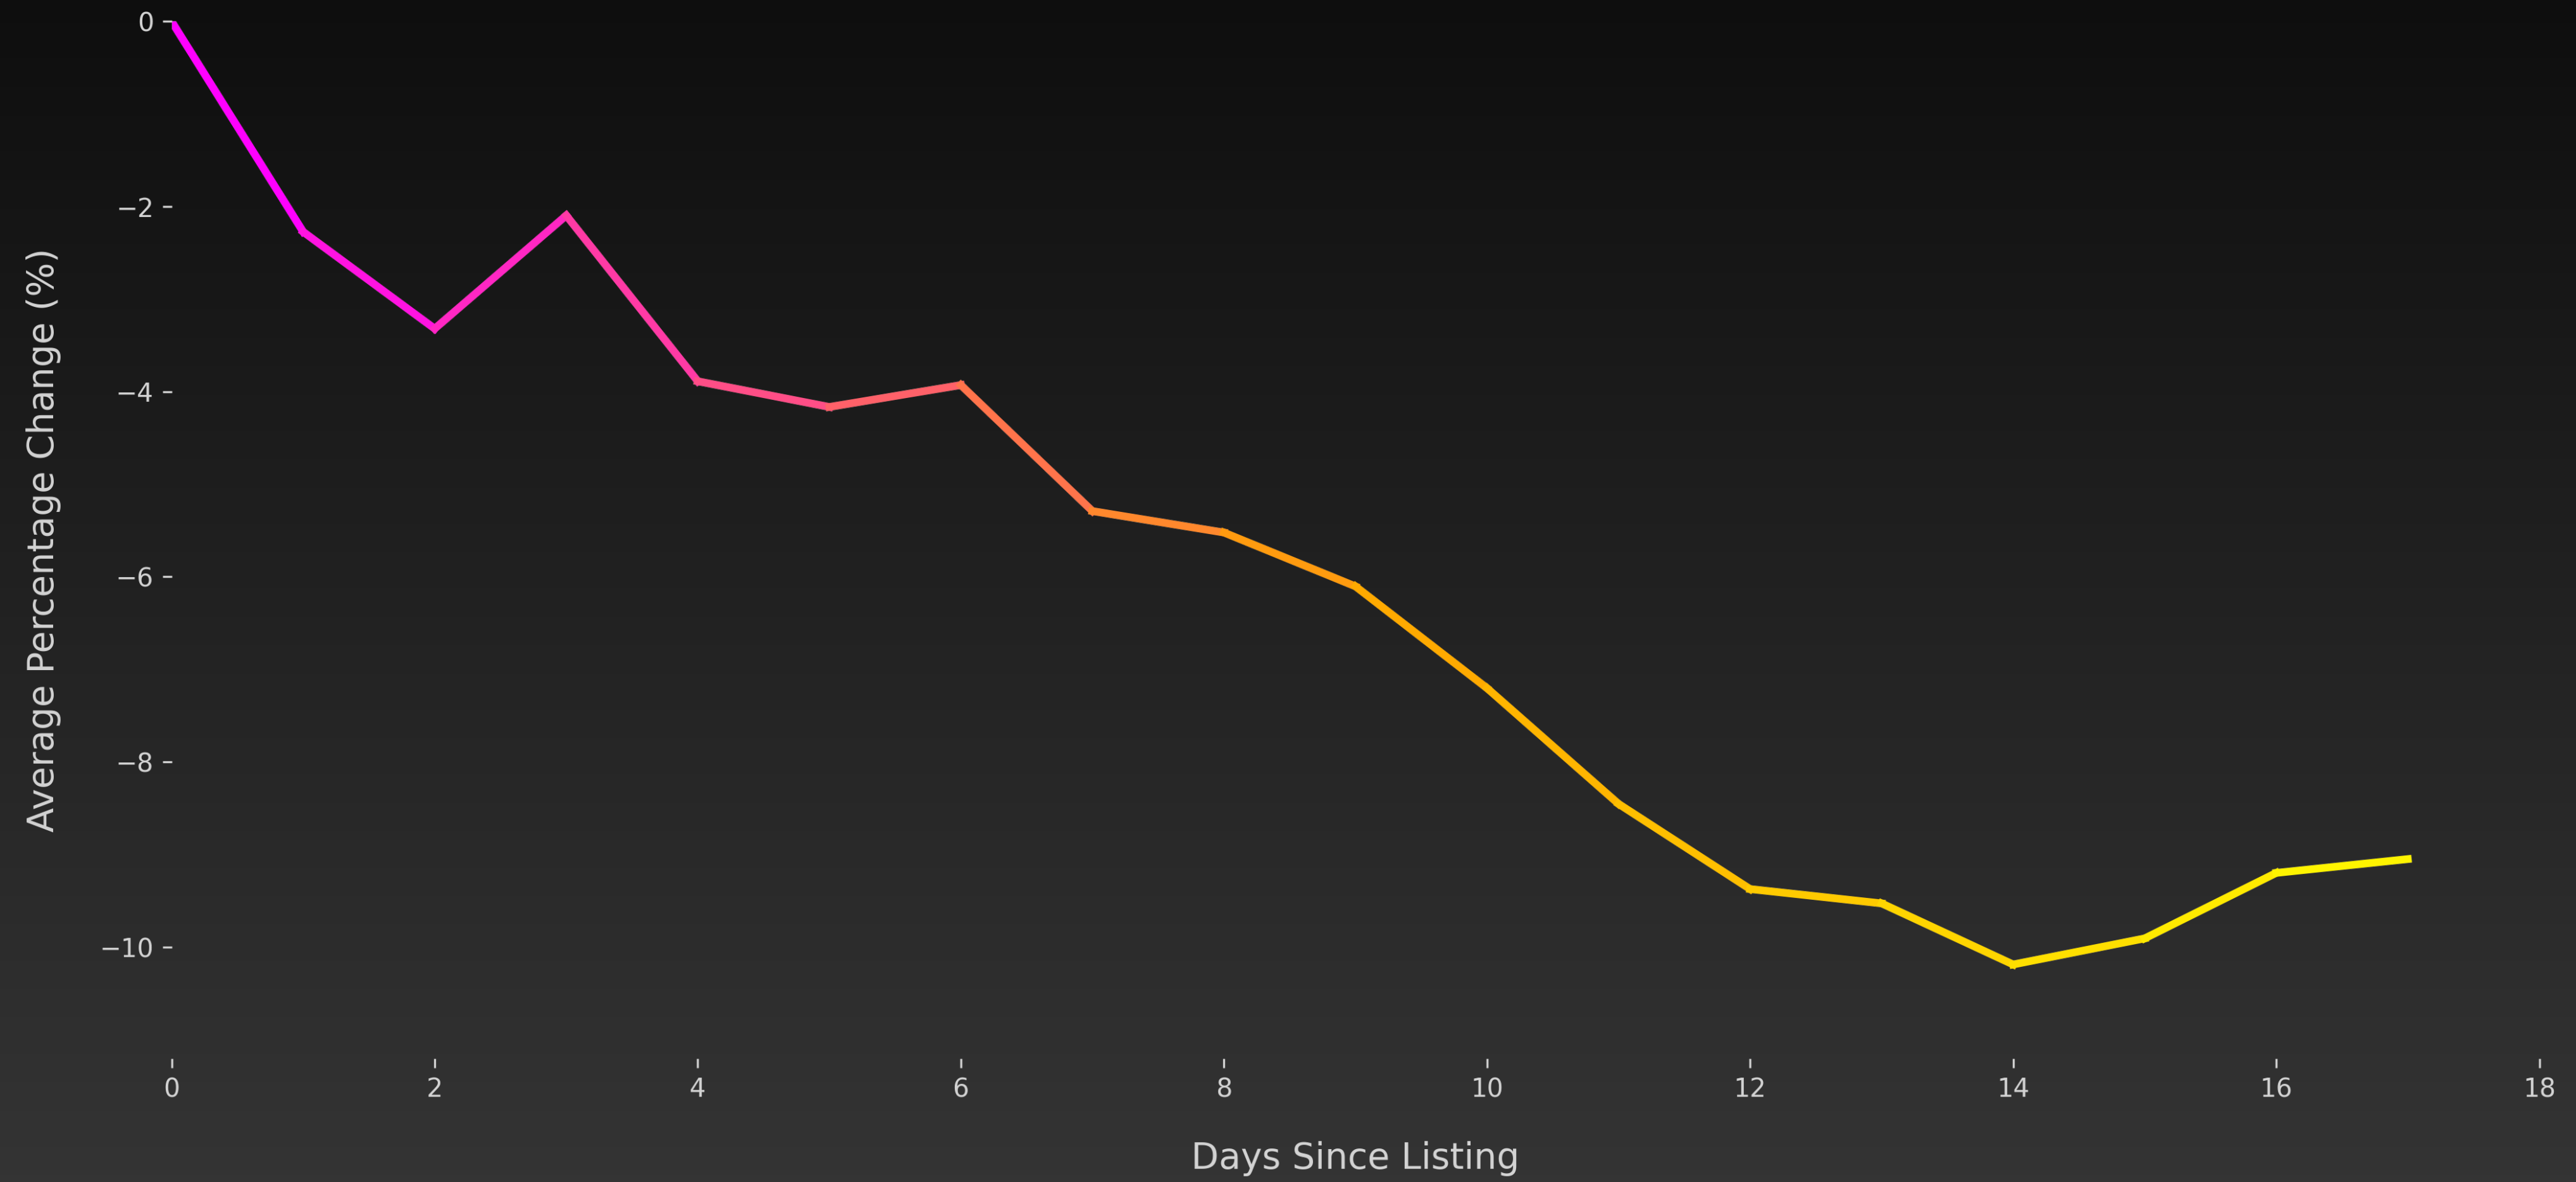

Pump and Dump

The Vision

A Bot that automatically registers new coin-listing-announcements on Binance ...

...and makes money by betting that the newly listed coins will fall.
